

THE ROAMING BISON

One of the best-known animals throughout the lore of the West is the American bison. Bison roamed the plains long before explorers set foot in the Americas, and people hunted them to provide shelter, clothing and nourishment. Follow the steps below to recreate this torn paper landscape scene, complete with roaming bison:

STEP 1: GATHER THE MATERIALS

- Bison Template
- Glue Stick
- Poster board
- Wiggle eye
- Construction paper (blue, yellow, green, and white)
- Black Marker
- Scissors

STEP 2: CREATE THE BACKGROUND

- Glue the blue paper to your poster board.
- Tear the yellow paper in half and glue this to the bottom section of the board.
- Tear a smaller piece of green paper and glue this to the bottom section of the board.
- Now you should have three sections, the sky, mountains, and the grass. In the sky section, use the white paper and glue to create clouds and a sun.
- Draw in details to the background.

STEP 3: THE BISON

- Cut out the bison template. Trace this onto brown paper and cut it out.
- Place the bison shape on the page and glue it down.
- Glue on a wiggle eye and draw details such as horns, hooves, and a tail.
